ELIZABETH A. GALE,
Treasurer.

July 1, 1927.

This is to certify that I have examined the books and records of the school board and of the treasurer and find the above a true summary for the year ending June 30, 1927.

GEORGE W. MORTON,
Auditor.

July 14, 1927.

To the School Board of Bartlett Town:

The difference between the five dollar tax on our increased valuation and the total amount of our approved budget is so small that this district can expect little or no aid from the equalization fund. It is, however, advisable to raise the five dollar tax as we should need it anyway, and we will in this case be eligible to

state aid if our approved budget should exceed the amount of the tax.

There is no reason at this date to anticipate a deficit on this year's business.

The annual health inspection will disclose the fact that we have some unvaccinated children in school with no physician's excuse. The law is explicit that these children be excluded from school and a recent court decision upholds the law. No child should be allowed to enter school next September unless vaccinated or in possession of a physician's excuse.

From an educational view-point it would be better to maintain one school for all the pupils of this district. If the three present school buildings could be sold, a modern two-room school could be built near Glen. We already have one transportation route to Glen and one more would be necessary.

Two of the present schools are too small for efficiency. No matter how capable the teacher, any school of less than fifteen pupils is ineffective and costly. In a larger school there is competition, group activity and pride in common achievement. These are of necessity lacking in the smaller school.

There has been a noticeable improvement in health habits, personal appearance and manners in our schools this year which indicate that our teachers have a proper conception of their jobs.

Respectfully submitted,

JOHN H. FULLER

FRED J. PERKINS,

CLIFTON R. GARLAND,

TRUE F. HODGKINS,

School Board.

School Board of Bartlett Special District

The estimate of probable income for the current school year is \$10,815 while the estimated expenditures are \$10,122. While expenditures cannot always be anticipated, the year should close with no deficit.

Our grammar school teachers who had served us satisfactorily resigned last summer to accept new positions. It is not desirable to replace an entire teaching staff in the same year but our new teachers have attacked the problem with enthusiasm and energy and our schools have been well taught.

The high school enrollment remains about the same, 42 in all this year. Graduates who have gone to college are reported to be doing good work which is gratifying.

The high school classes in Chemistry and Physics are somewhat cramped for space in the boiler room. If the north half of the basement was finished, it would make an ideal laboratory.

An automatic exit lock has been placed on the grammar school in order to comply with the state law.

A word of appreciation is due to the Parent-Teacher Association, the physicians and others who have taken so much interest in the health problems of the schools.

Respectfully submitted,

JOHN H. FULLER.
